### Portfolio Operations

As of September 30, 2024, the Company or its JV owned 95 operating properties in the United States encompassing approximately 9.3 million leased square feet, including 92 operating properties that were leased primarily to U.S. Government tenant agencies, two operating properties that were entirely leased to private tenants, and one operating property leased primarily to tenant agencies of a high-credit U.S. state government. In addition, the Company wholly owned two properties in development that the Company expects will encompass approximately 0.2 million rentable square feet upon completion. The first re-development project, located in Atlanta, Georgia, is currently under construction and, once complete, a 20-year lease with the U.S. General Services Administration (GSA) is expected to commence for the beneficial use of the U.S. Food and Drug Administration (FDA). The second project, located in Flagstaff, Arizona, is currently in design and, once complete, a 20-year lease with the GSA is expected to commence for the beneficial use of the United States Judiciary. As of September 30, 2024, the portfolio had a weighted average age of 14.8 years, based upon the date properties were built or renovated-to-suit, and had a weighted average remaining lease term of 10.2 years.

### Balance Sheet and Capital Markets Activity

As of September 30, 2024, the Company had total indebtedness of approximately \$1.5 billion comprised of \$149.6 million outstanding on its senior unsecured revolving credit facility, \$100.0 million outstanding on its 2016 term loan facility, \$174.5 million outstanding on its 2018 term loan facility, \$900.0 million of senior unsecured notes, and \$157.4 million of mortgage debt (excluding unamortized premiums and discounts and deferred financing fees). The Company's outstanding debt had a weighted average maturity of 4.9 years and a weighted average interest rate of 4.6%. Further, the Company's Net Debt to total enterprise value was 49.0% and its Adjusted Net Debt to annualized quarterly pro forma EBITDA ratio was 7.0x.

### Acquisitions and Development Lending Activity

On August 6, 2024, the Company entered into a construction loan agreement to lend up to \$52.1 million to a developer (the "Borrower") in connection with the re-development of an approximately 68,669 square foot Drug Enforcement Administration (DEA) facility located in Bedford, Massachusetts ("DEA - Bedford"). The construction loan will accrue interest monthly at a fixed market rate of 9.00% per annum and will be re-paid through draws made on the construction loan. The construction loan shall be repaid in full on or before August 31, 2027, the maturity date. Upon completion of the development, at the Company's election, the Company has the option through a Membership Interest Purchase Agreement to purchase all of the issued and outstanding membership interest from the Borrower through a special purpose entity ("SPE") which solely holds the developed property.

On August 29, 2024, the Company acquired the previously announced 193,100 leased square foot outpatient facility leased to the VA located in Jacksonville, Florida. VA - Jacksonville is the final property to be acquired in the previously announced portfolio of 10 properties 100% leased to the VA under predominately 20-year firm term leases. VA - Jacksonville supports veterans within the surrounding region through primary and specialty healthcare services including prosthetics, physical therapy, occupational therapy, traumatic brain injury treatment, and rehabilitation medicine. The facility also features a domiciliary which provides housing to veterans who are otherwise homeless, require substance abuse treatment, or need additional full-time care. Over 1.4 million veterans reside in the State of Florida, representing the third largest veteran population in the nation.

On September 4, 2024, the Company acquired Northrop Grumman - Dayton, a build-to-suit facility that has been occupied by Northrop Grumman Systems Corporation since 2012 and incorporates robust security enhancements, including secure design standards, access control systems, and security cameras, all of which aid in the confidentiality and integrity of the tenant's operations. The property sits adjacent to Gate 22B at the Wright-Patterson Air Force Base, the main access point for the Air Force Research Laboratory's (AFRL) headquarters and the Air Force Institute of Technology. Dating back to its founding in 1917, the AFRL is the primary scientific research and development center for the Department of the Air Force and plays an integral role in leading the discovery, development, and integration of warfighting technologies for the country's air, space, and cyberspace force. With a workforce of more than 12,500 employees across nine technology areas and 40 other operations across the globe, AFRL provides a diverse portfolio of science and technology ranging from fundamental to advanced research and technology development.

#### Dividend

On October 31, 2024, the Board of Directors of Easterly approved a cash dividend for the third quarter of 2024 in the amount of \$0.265 per common share. The dividend will be payable November 27, 2024 to shareholders of record on November 15, 2024.

#### Subsequent Events

On October 10, 2024, the Company acquired a 104,136 square foot facility 100% leased to Northrop Grumman Systems Corporation (NYSE: NOC, S&P: BBB+), a multinational aerospace and defense company, located in Aurora, Colorado ("Northrop Grumman - Aurora"). The facility, developed in 2002, was built-to-suit for TRW Inc., an aerospace and automotive corporation acquired by Northrop Grumman in that same year. Approximately 70% of the three-floor buildout is constructed under secure design standards as required by the U.S. Government related to the tenant's contracts with Buckley Space Force Base ("Buckley SFB"). This secure space is certified and accredited as meeting Director of National Intelligence security standards for the processing, storage, and discussion of sensitive compartmented information. The property is located immediately west of Buckley SFB, which contributes an estimated \$2.5 billion annually to the local economy and provides strategic and theater missile warning to the United States and its International Partners. The base supports 3,500 active-duty members from every service, 4,000 National Guard personnel and Reservists, four commonwealth international partners, 2,400 civilians, 2,500 contractors, 94,000 retirees and approximately 40,000 veterans and dependents.

Subsequent to the quarter ending September 30, 2024, the Company entered into forward sales transactions through the December 2019 ATM Program for the sale of 500,000 shares of the Company's common stock at a net weighted average initial forward sales price of \$13.32 per share that have not yet been settled, for which, as of the date of this release, the Company expects to receive aggregate net proceeds of approximately \$6.7 million, assuming these forward sales transactions are physically settled at such price.

### Non-GAAP Supplemental Financial Measures

This section contains definitions of certain non-GAAP financial measures and other terms that the Company uses in this press release and, where applicable, the reasons why management believes these non-GAAP financial measures provide useful information to investors about the Company's financial condition and results of operations and the other purposes for which management uses the measures. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. A reconciliation of the differences between each non-GAAP financial measure and the comparable GAAP financial measure are included in this press release following the consolidated financial statements. Additional detail can be found in the Company's most recent annual report on Form 10-K and quarterly report on Form 10-Q, as well as other documents filed with or furnished to the Securities and Exchange Commission from time to time. We present certain financial information and metrics "at Easterly's Share," which is calculated on an entity-by-entity basis. "At Easterly's Share" information, which we also refer to as being "at share," "pro rata," or "our share" is not, and is not intended to be, a presentation in accordance with GAAP.

**Cash Available for Distribution (CAD)** is a non-GAAP financial measure that is not intended to represent cash flow for the period and is not indicative of cash flow provided by operating activities as determined under GAAP. CAD is calculated in accordance with the current Nareit definition as FFO minus normalized recurring real estate-related expenditures and other non-cash items, nonrecurring expenditures and the unconsolidated real estate venture's allocated share of these adjustments. CAD is presented solely as a supplemental disclosure because the Company believes it provides useful information regarding the Company's ability to fund its dividends. Because all companies do not calculate CAD the same way, the presentation of CAD may not be comparable to similarly titled measures of other companies.

**Core Funds from Operations (Core FFO)** adjusts FFO to present an alternative measure of the Company's operating performance, which, when applicable, excludes items which it believes are not representative of ongoing operating results, such as liability management related costs (including losses on extinguishment of debt and modification costs), catastrophic event charges, depreciation of non-real estate assets, provision for credit losses, and the unconsolidated real estate venture's allocated share of these adjustments. In future periods, the Company may also exclude other items from Core FFO that it believes may help investors compare its results. The Company believes Core FFO more accurately reflects the ongoing operational and financial performance of the Company's core business.

**EBITDA** is calculated as the sum of net income (loss) before interest expense, taxes, depreciation and amortization, (gain) loss on the sale of operating properties, impairment loss, and the unconsolidated real estate venture's allocated share of these adjustments. EBITDA is not intended to represent cash flow for the period, is not presented as an alternative to operating income as an indicator of operating performance, should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP, is not indicative of operating income or cash provided by operating activities as determined under GAAP and may be presented on a pro forma basis. EBITDA is presented solely as a supplemental disclosure with respect to liquidity because the Company believes it provides useful information regarding the Company's ability to service or incur debt. Because all companies do not calculate EBITDA the same way, the presentation of EBITDA may not be comparable to similarly titled measures of other companies.

**Funds From Operations (FFO)** is defined, in accordance with the Nareit FFO White Paper - 2018 Restatement, as net income (loss), calculated in accordance with GAAP, excluding depreciation and amortization related to real estate, gains and losses from the sale of certain real estate assets, gains and losses from change in control and impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity. FFO includes the Company's share of FFO generated by unconsolidated affiliates. FFO is a widely recognized measure of REIT performance. Although FFO is a non-GAAP financial measure, the Company believes that information regarding FFO is helpful to shareholders and potential investors.

**Net Debt and Adjusted Net Debt** Net Debt represents the Company's consolidated debt and its share of unconsolidated debt adjusted to exclude its share of unamortized premiums and discounts and deferred financing fees, less its share of cash and cash equivalents and property acquisition closing escrow, net of deposit. By excluding these items, the result provides an estimate of the contractual amount of borrowed capital to be repaid, net of cash available to repay it. The Company believes this calculation constitutes a beneficial supplemental non-GAAP financial disclosure to investors in understanding its financial condition. Adjusted Net Debt is Net Debt reduced by 1) for each project under construction or in design, the lesser of i) outstanding lump-sum reimbursement amounts and ii) the cost to date, 2) 40% times the amount by which the cost to date exceeds total lump-sum reimbursement amounts for each project under construction or in design and 3) outstanding lump-sum reimbursement amounts for projects previously completed. These adjustments are made to 1) remove the estimated portion of each project under construction, in design or previously completed that has been financed with debt which may be repaid with outstanding cost reimbursement payments from the US Government and 2) remove the estimated portion of each project under construction or in design, in excess of total lump-sum reimbursements, that has been financed with debt but has not yet produced earnings. See page 25 of the Company's Q3 2024 Supplemental Information Package for further information. The Company's method of calculating Net Debt and Adjusted Net Debt may be different from methods used by other REITs and may be presented on a pro forma basis. Accordingly, the Company's method may not be comparable to such other REITs.

### Other Definitions

**Fully diluted basis** assumes the exchange of all outstanding common units representing limited partnership interests in the Company's operating partnership, or common units, the full vesting of all shares of restricted stock, and the exchange of all earned and vested LTIP units in the Company's operating partnership for shares of common stock on a one-for-one basis, which is not the same as the meaning of "fully diluted" under GAAP.
