The three properties represent an aggregate of 355,426-square feet and were acquired for a combined purchase price of \$152.5 million. The three properties include:

DEA - Sterling

DEA - Sterling serves as a special testing and research laboratory to assist the DEA in performing mission critical forensic analyses. The 49,692-square foot facility was built-to-suit in 2001 and includes evidence rooms, computer labs, cryptography and various other specialized laboratories. The facility is 100% leased through 2020.

• FDA - College Park

FDA - College Park houses a laboratory for the FDA's Center for Food Safety and Applied Nutrition (CFSAN), one of the FDA's seven product-oriented centers. The 80,677-square foot office and laboratory was built-to-suit in 2004 and is 100% leased through 2029. The facility is part of the University of Maryland's Research Park and is located two blocks from CFSAN headquarters in the Harvey W. Wiley Building, forming a campus which links university researchers, students and staff with federal laboratories and private sector companies.

Various GSA - Portland
 Various GSA - Portland, a Class A multi-tenanted asset, was built in 2002 and is strategically located within Portland's Central City Plan District along the MAX light rail system. The 225,057-square foot facility is occupied by tenants such as the U.S. Department of Agriculture (USDA), U.S. Army Corp of Engineers (ACOE), FBI and the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF).

On May 8, 2019, the Company acquired a 403,737-square foot U.S. Joint Staff Command (JSC) facility located in Suffolk, Virginia ("JSC - Suffolk"). JSC - Suffolk is comprised of two modern, Class A buildings 100% leased to the GSA and occupied by the Department of Defense's (DoD) U.S Joint Staff Command division. The two-building facility sits on just over 40 acres and provides over 10,000 square feet of Secure Compartmented Information Facility (SCIF) space and over 118,000 square feet of specialized cooling and raised floor area for the facility's data center operations. This Level IV Security facility was recently re-leased to the GSA for a firm term of 10 years that expires in June 2028 with an additional five-year option.

On May 8, 2019, the Company strategically sold one of its older facilities, the 59,322-square foot CBP facility located in Chula Vista, California. With the sale of CBP - Chula Vista, the Company reduced the average age of its overall portfolio. Constructed in 1998, CBP - Chula Vista is a build-to-suit property that serves as the CBP's San Diego Sector Headquarters.

On May 9, 2019, the Company acquired a 137,679-square foot FBI field office in New Orleans, Louisiana ("FBI - New Orleans"). FBI - New Orleans is a four-story single tenant facility located on a 6.6-acre site chosen by the government that houses the FBI's New Orleans Division, which oversees federal operations in all of Louisiana, including six satellite offices in Baton Rouge, Alexandria, Lafayette, Lake Charles, Monroe and Shreveport. This build-to-suit construction was originally completed in 1999 and renovated in 2006 and is 100% occupied by the FBI until August 2029 under a non-cancelable remaining lease term of 10 years. Additionally, the GSA has an option to renew the lease for an additional 10-year term, expiring in 2039.

On June 20, 2019, the Company announced a 20-year non-cancelable lease award for the re-development of a 162,000-square foot FDA laboratory in Atlanta, Georgia ("FDA - Atlanta"). As one of these 13 field laboratories, FDA - Atlanta will house both laboratory and office space for the Atlanta District Office as well as the Southeast Food and Feed Laboratory (SFFL) and Southeast Tobacco Laboratory (STL). The Atlanta District Office oversees the regulatory operations within the Atlanta region, while the SFFL provides laboratory testing and regulation for the region, as well as research into new methodologies and regulatory areas within the FDA. The FDA Atlanta region covers operations in Alabama, Florida, Georgia, Louisiana, Tennessee, Mississippi, North Carolina, South Carolina, U.S. Virgin Islands, and Puerto Rico. The state-of-the-art facility will house four separate laboratories for nutritional analysis, chemistry, microbiology and tobacco. The facility

will be designed to meet the requirements of the National Institutes of Health Design Requirements Manual (NIH DRM) whereby the building systems will be designed specifically for important FDA functions.

On August 22, 2019, the Company acquired a 169,585-square foot Environmental Protection Agency (EPA) Regional Headquarters in Lenexa, Kansas ("EPA - Lenexa"). EPA - Lenexa is a single tenant GSA-leased office building which serves as the Region 7 headquarters for the EPA. Originally constructed in 2007, the two-level office building, which is situated on a 30.5-acre parcel of land, underwent a large-scale renovation-to-suit for the EPA in 2012 whereby the facility received U.S. Green Building Council's (USGBC) LEED® Gold for New Construction (version 2009) certification in April 2014. The building also received the LEED Platinum for Existing Buildings (version 2009) certification in February 2015. The Region 7 Office building was also awarded the ENERGY STAR® in 2014 and in 2016 with a score of 94. This modern facility is 100% occupied by the EPA under its original 15-year lease, which expires in 2027, subject to a five-year renewal option, thus potentially carrying the term through October 2032.

On August 27, 2019, the lease commenced at the newly re-developed 69,624-square foot FDA laboratory in Alameda, California. Easterly had previously acquired the rights to a lease award to re-develop the new FDA regional laboratory, one of 13 regional laboratories located throughout the country. The Company's 20-year non-cancelable lease commenced with the GSA for the beneficial use of the FDA following the successful completion of the approximately \$83.0 million re-development project. FDA - Alameda is a mission critical laboratory that includes a blend of office and laboratory space, all specifically designed to promote the health and safety of the American public by assuring the safety, efficacy and security of human and veterinary drugs, our nation's food supply, biological products, medical devices and other products, including cosmetics.

On October 22, 2019, the Company acquired a 66,818-square foot USCIS facility in Tustin, California. USCIS - Tustin is a single tenant, LEED Certified office building, 100% leased to the GSA for the beneficial use of USCIS. The facility recently underwent a sizeable renovation-to-suit for USCIS whereby the tenant provided a substantial capital investment into this facility. The government recently signed a 15-year lease for the building, which expires in 2034.

On November 21, 2019, the Company acquired a 56,330-square foot VA outpatient facility located in the Northeast United States. This state-of-the-art facility is an expansion and relocation of an existing VA facility in the region. Further, the facility benefits from its proximity to the existing VA Hospital Campus. This build-to-suit outpatient facility, which is subject to an initial, non-cancelable lease term of 15 years, has been designed to achieve Green Globes Certification for New Construction.

This guidance assumes \$200 million of acquisitions and \$40 - \$50 million of gross development-related investment during 2020.

Non-GAAP Supplemental Financial Measures

This section contains definitions of certain non-GAAP financial measures and other terms that the Company uses in this press release and, where applicable, the reasons why management believes these non-GAAP financial measures provide useful information to investors about the Company's financial condition and results of operations and the other purposes for which management uses the measures. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. Additional detail can be found in the Company's most recent annual report on Form 10-K and quarterly report on Form 10-Q, as well as other documents filed with or furnished to the SEC from time to time.

Cash Available for Distribution (CAD) is a non-GAAP financial measure that is not intended to represent cash flow for the period and is not indicative of cash flow provided by operating activities as determined under GAAP. CAD is calculated in accordance with the current Nareit definition as FFO minus normalized recurring real estate-related expenditures and other non-cash items and nonrecurring expenditures. CAD is presented solely as a supplemental disclosure because the Company believes it provides useful information regarding the Company's ability to fund its dividends. Because all companies do not calculate CAD the same way, the presentation of CAD may not be comparable to similarly titled measures of other companies.

EBITDA is calculated as the sum of net income (loss) before interest expense, taxes, depreciation and amortization. EBITDA is not intended to represent cash flow for the period, is not presented as an alternative to operating income as an indicator of operating performance, should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP, is not indicative of operating income or cash provided by operating activities as determined under GAAP and may be presented on a pro forma basis. EBITDA is presented solely as a supplemental disclosure with respect to liquidity because the Company believes it provides useful information regarding the Company's ability to service or incur debt. Because all companies do not calculate EBITDA the same way, the presentation of EBITDA may not be comparable to similarly titled measures of other companies.

Funds From Operations (FFO) is defined, in accordance with the Nareit FFO White Paper - 2018 Restatement, as net income (loss), calculated in accordance with GAAP, excluding depreciation and amortization related to real estate, gains and losses from the sale of certain real estate assets, gains and losses from change in control and impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity. FFO is a widely recognized measure of REIT performance. Although FFO is a non-GAAP financial measure, the Company believes that information regarding FFO is helpful to shareholders and potential investors.

Funds From Operations, as Adjusted (FFO, as Adjusted) adjusts FFO to present an alternative measure of our operating performance, which, when applicable, excludes the impact of acquisition costs, straight-line rent, amortization of above-/below-market leases, amortization of deferred revenue (which results from landlord assets funded by tenants), non-cash interest expense, non-cash compensation and other non-cash items. By excluding these income and expense items from FFO, as Adjusted, the Company believes it provides useful information as these items have no cash impact. In addition, by excluding acquisition related costs the

Company believes FFO, as Adjusted provides useful information that is comparable across periods and more accurately reflects the operating performance of the Company's properties. Certain prior year amounts have been updated to conform to the current year FFO, as Adjusted definition.

Net Debt and Adjusted Net Debt. Net Debt represents consolidated debt (reported in accordance with GAAP) adjusted to exclude unamortized premiums and discounts and deferred financing fees, less cash and cash equivalents. By excluding these items, the result provides an estimate of the contractual amount of borrowed capital to be repaid, net of cash available to repay it. The Company believes this calculation constitutes a beneficial supplemental non-GAAP financial disclosure to investors in understanding its financial condition. Adjusted Net Debt is Net Debt reduced by 1) the lesser of i) anticipated lump-sum reimbursement amounts and ii) the cost to date for each project under construction and 2) 40% times the amount by which the cost to date exceeds anticipated lump-sum reimbursement amounts for each project under construction. These adjustments are made to 1) remove the estimated portion of each project under construction that has been financed with debt which may be repaid with anticipated cost reimbursement payments from the US Government and 2) remove the estimated portion of each project under construction, in excess of anticipated lump-sum reimbursements, that has been financed with debt but has not yet produced earnings. See page 20 of the Company's Q4 2019 Supplemental Information Package for further information. The Company's method of calculating Net Debt and Adjusted Net Debt may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Other Definitions

Fully diluted basis assumes the exchange of all outstanding common units representing limited partnership interests in the Company's operating partnership, the full vesting of all shares of restricted stock, and the exchange of all earned and vested LTIP units in the Company's operating partnership for shares of common stock on a one-for-one basis, which is not the same as the meaning of "fully diluted" under GAAP.
